2012-2016
Los Angeles, CA

Relevant Coursework:

- Human Computer Interface Design
- Web Publishing
- Fundamentals of Computer Programming
- Data Structures and Object Oriented Design
- Discrete Methods in Computer Science
- Principles of Software Development
- Programming and Multimedia on the World Wide Web

WORK EXPERIENCE

USC Viterbi School of Engineering
Teaching Assistant

Fall 2014
Los Angeles, CA

Taught the fundamental technologies of front-end web development (HTML5, CSS3, and JavaScript) to a class of 50 students. Aided the professor in course planning and the execution of course material inside the classroom.

Sony Network Entertainment International
Software Development Intern

Summer 2014
Los Angeles, CA

Developed new features for a browser-based localization tool. Led an UI redesign that improved the usability of the application. Achieved proficiency with a variety of industry-standard software development tools, and gained practical experience with agile software development methodology by working with a SCRUM team on a mission critical project with complex requirements.

USC Institute for Global Health
Web Development Intern

Spring 2014
Los Angeles, CA

Collaborated with program directors at 10 universities across the globe to conceptualize and develop an online presence for a premier sexual and reproductive health and rights network. Spearheaded the development and design of the project's website using Drupal CMS.

VOLUNTEER EXPERIENCE

HackSC
Web Development "HackSchool" Mentor

November 2014
Los Angeles, CA

HackSC is a national hackathon hosted at the University of Southern California. The Web Development "HackSchool" was an introductory workshop designed to guide students through building their first full stack web application.

20 Million Minds Foundation / General Assembly
Project #CodeTruck Volunteer

October 2014
Los Angeles, CA

Project #CodeTruck offers introductory coding workshops and career exploration for young students at public school sites in LA, and aims to inspire students to embrace their entrepreneurial spirit and expose them to the endless possibilities in technology.
